UDO INNOCENT CHARLES

Software developer

I'm a skilled software developer with experience in Java and JavaScript, and expertise in frameworks like SpringBoot, React, and Security. I'm a quick learner and collaborate closely with clients to create efficient, scalable, and user-friendly solutions that solve real-world problems.

Education

Software Engineering

From November 2022 to August 2023 [DECAGON](#) Lagos

BS.c in Biotechnology

From August 2014 to August 2019 [UNIVERSITY OF CALABAR](#) Calabar

Work experience

Python Developer

From November 2022 to August 2023 [ALX AFRICA](#) Remote

- Collaborative Problem-Solving: Collaborated closely with the data science team, showcasing strong teamwork and communication skills while architecting the solution and ensuring data integrity through comprehensive testing.
- Implementing responsive design (AirBnB clone) and ensuring cross-browser compatibility.

Java Developer

Since May 2023 [DECAGON](#) Lagos

- Improved user authentication by incorporating email service into an existing Spring Boot application.
- Increased productivity by 40% by following agile methodologies and best practices for product development.
- Managed SQL Server database system to ensure data integrity and security.
